

**Post-Doc Positions – Distributed Space Systems Lab
Faculty of Aerospace Engineering
Technion – Israel Institute of Technology**

The Distributed Space Systems Laboratory in the Faculty of Aerospace Engineering at the Technion – Israel Institute of Technology invites applications for multiple full-time post-doctoral positions from highly-motivated and independent Ph.D. recipients with expertise in **at least** one of the following disciplines: Astrodynamics, spacecraft formation flying, space systems design, dynamical systems, vision-aided navigation, and optimization.

The successful candidates will be responsible for both theoretical and applied research in the broad area of distributed space systems and autonomous agents.

The position is for a period of at least 12 months and is available until filled. The application review process will begin on November 1, 2010.

Applications should include the following:

- A full CV, including a list of publications
- Two copies of sample publications
- Names, postal and email addresses of three referees

Please send all applications and enquiries (preferably via e-mail) to:
