

הקורטוריון 2018 Board of Governors

Harvey Prize Lectures

Professor Tobin J. Marks

Vladimir N. Ipatieff Professor of Catalytic Chemistry
Professor of Materials Science and Engineering
Professor of Applied Physics
Professor of Chemical and Biological Engineering
Northwestern University, Evanston, IL USA

The 2017 Harvey Prize in Science and Technology is awarded to Professor Tobin J. Marks in recognition of his ground-breaking research, of both fundamental and practical significance, in the areas of catalysis, organo-f-element chemistry, electronic and photonic materials, and coordination chemistry, which have strongly impacted contemporary chemical science.

Monday, June 11, 2018 / 11:30 am

“Surface Science Meets Homogeneous Catalysis. Surfaces as Activators and Ligands”

Schulich Faculty of Chemistry, Lecture Hall No. 1

Professor Carla J. Shatz

Sapp Family Provostial Professor
Professor of Biology and Neurobiology
David Starr Jordan Director, Stanford Bio-X
Stanford University, Stanford, CA USA

The 2017 Harvey Prize in Science and Technology is awarded to Professor Carla J. Shatz in recognition of her discoveries concerning the emergence and function of brain circuits for vision. Her major contributions include fundamental discoveries about how brain circuits in the developing visual system are fine-tuned with experience and neural activity. Her outstanding molecular and circuit level findings have therapeutic implications for treating memory loss in aging and neurodevelopmental diseases.

Monday, June 11, 2018 / 1:00 pm

“Synapses lost and found: developmental critical periods and Alzheimer’s Disease”

Faculty of Biology, Auditorium

Leo M. Harvey

The Harvey Prize, established in 1971 by the late Leo M. Harvey of Los Angeles, is awarded each year to outstanding individuals in the fields of science and technology, human health, and the furtherance of Middle East peace.

The Harvey Prizes, awarded without reference to nationality, race, religion, or gender, constitute an annual tribute to outstanding scholars and scientists from around the world.

The ceremony will take place during the Board of Governors Events
