Lectures by Harvey Prize Laureates

Professor Paul B. Corkum

Joint Attosecond Science Lab, National Research Council of Canada and University of Ottawa, Ottawa, Ontario, Canada

The Harvey Prize in Science and Technology is awarded to Professor Paul B. Corkum In recognition of his seminal contributions to the field of attosecond science, enabling resolving electronic motion in atoms and molecules. For more than two decades, he has been a leader and pioneer in the field of ultrafast laser spectroscopy, generating powerful insights and experiments. Prof. Corkum 's ability to create intuitive models for very complex phenomena played the key role in establishing attosecond spectroscopy.

Monday , April 7, 2014

2:30 p.m.

Faculty of Physics, Rosen Auditorium # 323, Lidow Complex

Colloquium:

"Atto-Science: What We Learn While Converting Many Photons into One"

Thursday, April 10, 2014

11:30 a.m.

Andre and Bella Meyer, Advanced Technology Center Samuel and Dora Schechter Auditorium # 1003
Faculty of Electrical Engineering

"Generation and Measurement of Attosecond Pulses"

Professor Jon M. Kleinberg

Department of Computer Science and Department of Information Science
Cornell University, New York, Ithaca, USA

The Harvey Prize in Science and Technology is awarded to Professor Jon M. Kleinberg In recognition of his seminal contributions to, and leadership in, the newly emerging science of information networks. This includes his groundbreaking work on the characterization of the structure of the World Wide Web in terms of hubs and authorities, his analysis of small-world phenomena, and his work on the propagation of influence in networks.

Thursday, April 10, 2014

2:30 p.m.

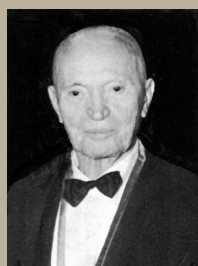

Henry and Marilyn Taub, Science and Technology Center
Room 337-8
Faculty of Computer Science

Colloquium

"Everyday Life in a Data -Rich World"

The Harvey Prize Award Ceremony will take place at the Technion, Tuesday, April 8, 2014, 6.30 p.m. at the Stanley Shalom Zielony Student Union Building. By Invitation only.

Guest speaker: **Avi Hasson**, Chief Scientist, Ministry of Economy: " The government' s role in promoting innovation in Israel"
By invitation only.

Leo M. Harvey

The Harvey Prize established in 1971 by the late Leo M. Harvey of Los Angeles, is awarded each year to outstanding individuals in the fields of science & technology, human health and the furtherance of Middle East peace.

The Harvey Prizes which are awarded without references to nationality, race, religion or gender, constitute an annual tribute to outstanding scholars and scientists from around the world.
